

2008 NGH CONVENTION BLOG

SUMMARY

National Guild of Hypnotists.

An Open Letter from Dr. Dwight Damon

dateline : May 17, 2008

“This is your invitation to participate in the **World’s Largest and Friendliest Professional Hypnotism Conference**. Join the celebration of our 21st Convention Anniversary!

Over the previous twenty-one years, our Annual NGH Convention has become the premier forum for sharing the study of hypnotism in an atmosphere of camaraderie. An adjunct faculty from around the world provides an open forum for a free exchange of ideas concerning hypnotism. It is truly the convention for all professional hypnotists.

The Program Committee members who spent so many hours evaluating the submissions have selected an incredibly rich constellation of presenters to make this a special occasion.

An extraordinary roster of seminars and workshops, plus an outstanding Saturday social evening are scheduled at our newly renovated convention location:

The Best Western Royal Plaza Convention and Trade Center in Marlborough, MA.

You can choose from over 200 seminars and workshops at the largest convention of its kind, with exciting social and networking opportunities. Many professional contacts and lifelong friendships with people you might otherwise have never met are formed each year at this convention. You can earn valuable continuing education and member certification renewal credits!

Check any page in the convention catalog at:

<http://www.ngh.net/Convention/2008NGHCatalog.pdf> and chances are a new offering will immediately engage your interest. **There is something for everybody.** Make an investment in your future, register right now by completing the Registration Form at: <https://www.ngh.net/Forms/ConventionRegistration.aspx>

Make the most of this opportunity by coming early for pre-convention courses or stay for post-convention courses. The pre- and post-programs will give you even greater knowledge in specialized areas. We are sure you will find this convention an exciting, rewarding experience both personally and professionally.

NGH continues the journey started 57 years ago, working to establish our field of expertise as a separate and distinct profession. Truly we are a brand new profession that is thousands of years old.

I look forward to personally welcoming you in August at the convention where you will truly feel you belong.”

Dr. Dwight Damon
