**Some Suggestions for
Clothing Choices**

Clothing: Choose appropriate attire that will not distract. Your attire should reflect your professionalism and success.

Colors: Avoid reds, yellows or greens unless they are your company colors; blues and browns usually work best. Pay particular attention to color combinations. Complementary - not contrasting-colors are best. If you're wearing a dark suit, for example, avoid a white shirt. The white against dark contrast will draw attention from your face. A light blue or pale yellow shirt is preferable. Likewise tone down your tie or scarf. Stay away from bold colors and prints. Ladies should not have low necklines and/or bright, reflective bold jewelry.
